Sommario/riassunto	"The primary purpose of this scholarly book is to provide an objective look into the dynamic world of equity markets, valuation, and analysis. The coverage extends from discussing basic concepts and their application to increasingly intricate and real-world situations. This volume spans the gamut from theoretical to practical while attempting to offer a useful balance of detailed and user-friendly coverage. Discussion of relevant research permeates the books. Readers can gain an in-depth understanding about this subject from experts in the field, both practitioners and academics. Readers interested in a broad survey will benefit as will those looking for more in-depth presentations of specific areas within this field of study. In summary, this book provides a fresh look at this intriguing and dynamic but often complex subject."
