Soggetti	Sex - Philosophy Sex customs - History
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Qu'est-ce que la sexualité? ? Quand et comment est-elle apparue ? Quels sont les principaux traits de son évolution ? Fort de sa compétence en génétique et en biologie évolutive, Jean Générmont propose des réponses et des pistes de réflexion issues de ses propres travaux, tout en s'appuyant sur de nombreux exemples pris aussi bien chez les animaux que chez les plantes terrestres.
