Note generali	Testo latino a fronte. In custodia.

2. Record Nr.	UNINA9910826885903321
Autore	Hartig John H.
Titolo	Bringing conservation to cities : lessons from building the Detroit River International Wildlife Refuge / / by John H. Hartig
Pubbl/distr/stampa	Burlington, Ontario : , : Aquatic Ecosystem Health, & Management Society, , 2014 ©2014
ISBN	0-9939184-0-9
Descrizione fisica	1 online resource (283 pages)
Collana	Ecovision World Monograph Series
Disciplina	333.72
Soggetti	Conservation projects (Natural resources) Wildlife refuges Detroit River International Wildlife Refuge (Mich.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	From resource abuse to recovery of Detroit River's charismatic megafauna -- From conservation vision to establishment of an international wildlife refuge -- Roots of the refuge : standing on the shoulders of Michigan United Conservation Clubs, Pointe Mouillee Waterfowl Festival, and the United Auto Workers -- Public-private partnerships for conservation -- Creating a new waterfront porch for people and wildlife -- Transformation of an industrial brownfield into a gateway to the International Wildlife Refuge -- If you build it they will come -- Citizen science and stewardship -- Reconnecting people back to the land and water through outdoor recreation -- Lessons learned.
Sommario/riassunto	There is growing interest in re-connecting urban residents with nature, but most conservationists want to work in pristine areas, and most urban areas are considered too degraded to rank high on conservation priority lists. Bringing Conservation to Cities is a timely and informative expose of what it takes to foster a conservation ethic in a major urban area--complete with critical lessons learned--and to simultaneously inspire and develop the next generation of urban conservationists. The book explores the new urban conservation frontier, with its numerous challenges and opportunities, and fosters more urban conservation initiatives throughout the world.
