| Note generali           | Bibliographic Level Mode of Issuance: Monograph   |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | Damaged life, the microscopic gaze and Adorno's practice of negative dialectics -- Alienated existence, focal distancing and Emerson's transcendental idealism -- Man as machine : Thoreau and modern alienation -- Huckleberrying toward democracy : Thoreau's practices of withdrawal -- Traveling away from home : Thoreau's spaces of withdrawal -- Alienation and the anti-foundationalist foundation of the self.   |
| Sommario/riassunto      | Best known for his two-year sojourn at Walden Pond in Massachusetts, Henry David Thoreau is often considered a recluse who emerged from solitude only occasionally to take a stand on the issues of his day. In Thoreau's Democratic Withdrawal, Shannon L. Mariotti explores Thoreau's nature writings to offer a new way of understanding the unique politics of the so-called hermit of Walden Pond. Drawing imaginatively from the twentieth-century German social theorist Theodor W. Adorno, she shows how withdrawal from the public sphere can paradoxically be a valuable part of democratic politics. |
