

1. Record Nr.	UNINA9910826933703321
Autore	Totman Conrad
Titolo	Pre-industrial Korea and Japan in Environmental Perspective // Conrad Totman
Pubbl/distr/stampa	Leiden; ; Boston : , : BRILL, , 2004
ISBN	1-280-46524-7 9786610465248 1-4237-1240-4 90-474-0284-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (280 p.)
Collana	Handbook of Oriental Studies. Section 5 Japan ; ; 11
Disciplina	304.2/09519
Soggetti	Agriculture - Japan - History Agriculture - Korea - History Human ecology - Japan - History Human ecology - Korea - History Japan Environmental conditions Korea Environmental conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; List of Illustrations; Preface; Acknowledgements; Chronology; Introduction; Chapter One: Paleogeography and Pre-Agricultural Society (to 1000 BCE); Chapter Two: The Rise of Early Agrarian Regimes (1000 BCE-700 CE); Chapter Three: The Early Agricultural Order (700-1350 CE); Chapter Four: The Later Agricultural Order (1350-1870 CE); Epilogue; Glossary; List of Plant and Animal Names; Bibliographical Essay; Bibliography; Index; Plates
Sommario/riassunto	Quoting from a reader's report "this is an original and compelling synthesis of the environmental history of Korea and Japan." Taking the history of Japan and Korea and their environmental interactions from late Pleistocene down to about 1870 AD, the author makes a convincing case for viewing the two countries together, as a history, particularly when looking at their pre-industrial experiences. Drawing from a rare combination of knowledge of both countries, Conrad

Totman reveals the extent of shared timing, substance, and dynamics in the political, social, and economic development of the two countries, and in their relationship to the ecosystem. With extensive bibliography, chronology, glossary, maps and graphs. A real must.
