| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Sommario/riassunto | "The critical importance of using mobile technology is clear to anyone in the health professions, particularly those who treat people with central nervous system (CNS) disorders. To explore current developments and opportunities for using mobile technology to advance research and treatment of CNS disorders, the National Academies' Forum on Neuroscience and Nervous System Disorders hosted a workshop in June 5-6, 2018. This publication summarizes the presentations and discussions at the workshop"-- |
