Soggetti	Germanic languages - Grammar
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This book takes up a variety of general syntactic topics, which either yield different solutions in German, in particular, or which lead to different conclusions for theory formation. One of the main topics is the fact that languages that allow for extensive scrambling between the two verbal poles, V-2 and V-last, need to integrate discourse functions like thema and rhema into the grammatical description. This is attempted, in terms of Minimalism, thus extending the functional domain.
