Autore	Drucker Donna J.
Titolo	The classification of sex : Alfred Kinsey and the organization of knowledge / / Donna J. Drucker
Pubbl/distr/stampa	Pittsburgh, Pennsylvania : , : University of Pittsburgh Press, , 2014 ©2014
ISBN	0-8229-7950-0
Descrizione fisica	1 online resource (pages cm)
Classificazione	SCI034000
Disciplina	306.7
Soggetti	Science - Methodology Classification of sciences Research - United States Sexology - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Drucker develops a synthetic argument about how Kinsey's scholarship

and training as an entomologist and evolutionary scientist affected his teaching, research, writing, and analysis of human behavior. Places Kinsey at the center of trends in American intellectual and scientific life in the mid-twentieth century. Drucker uses the whole of Kinsey's intellectual life to address questions of data collection and scientific objectivity, and whether it is possible to have research approaches and frameworks for studying human sexuality that could satisfy ever-shifting delineations and measurements of objectivity"--

"Alfred C. Kinsey's revolutionary studies of human sexual behavior are world-renowned. His meticulous methods of data collection, from comprehensive entomological assemblies to personal sex history interviews, raised the bar for empirical evidence to an entirely new level. In *The Classification of Sex*, Donna J. Drucker presents an original analysis of Kinsey's scientific career in order to uncover the roots of his research methods. She describes how his enduring interest as an entomologist and biologist in the compilation and organization of mass data sets structured each of his classification projects. As Drucker shows, Kinsey's lifelong mission was to find scientific truth in numbers and through observation-and to record without prejudice in the spirit of a true taxonomist. Kinsey's doctoral work included extensive research of the gall wasp, where he gathered and recorded variations in over six million specimens. His classification and reclassification of *Cynips* led to the speciation of the genus that remains today. During his graduate training, Kinsey developed a strong interest in evolution and the links between entomological and human behavior studies. In 1920, he joined Indiana University as a professor in zoology, and soon published an introductory text on biology, followed by a coauthored field guide to edible wild plants. In 1938, Kinsey began teaching a noncredit course on marriage, where he openly discussed sexual behavior and espoused equal opportunity for orgasmic satisfaction in marital relationships. Soon after, he began gathering case histories of sexual behavior. As a pioneer in the nascent field of sexology, Kinsey saw that the key to its cogency was grounded in observation combined with the collection and classification of mass data. To support the institutionalization of his work, he cofounded the Institute for Sex Research at Indiana University in 1947. He and his staff eventually conducted over eighteen thousand personal interviews about sexual behavior, and in 1948 he published *Sexual Behavior in the Human Male*, to be followed in 1953 by *Sexual Behavior in the Human Female*. As Drucker's study shows, Kinsey's scientific rigor and his early use of data recording methods and observational studies were unparalleled in his field. Those practices shaped his entire career and produced a wellspring of new information, whether he was studying gall wasp wings, writing biology textbooks, tracing patterns of evolution, or developing a universal theory of human sexuality"--

Titolo	A guide to the African human rights system: Celebrating 30 years since the entry into force of the African Charter on Human and Peoples' Rights 1986 - 2017
Pubbl/distr/stampa	Pretoria University Law Press (PULP), 2017
Descrizione fisica	1 online resource (80 p.)
Soggetti	Human rights - Africa
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>A Guide to the African human rights system has been conceived as an accessible and informative introduction to the human rights system established under the auspices of the African Union (AU). This Guide provides an overview of developments related to the African Charter on Human and Peoples' Rights, its supervisory body, the African Commission on Human and Peoples' Rights, the African Court on Human and Peoples' Rights, as well as the African Charter on the Rights and Welfare of the Child and its supervisory body, the African Committee of Experts on the Rights and Welfare of the Child. It is launched on 2 November 2017, commemorating the date, 30 years earlier, on which the African Commission was inaugurated. The Guide aims to both chart the most salient historical developments and provide an accessible introduction to the African human rights system, and is continuously revised. The Centre for Human Rights is both an academic department and a non-governmental organisation (NGO) accorded observer status with the African Commission. The Centre teaches academic programmes and engages in research, advocacy and training on human rights, with a specific focus on Africa. Its flagship programmes are the Master's in Human Rights and Democratisation in Africa and the African Human Rights Moot Court Competition. For more information on the Centre for Human Rights, visit <a href="http://www.chr.up.ac.za">www.chr.up.ac.za</a></p>
