Sommario/riassunto

Presents an innovative family-based approach to rehabilitation counseling that can be put to use immediately!. While the family has traditionally been a secondary consideration in rehabilitation, this graduate text presents an innovative approach to rehabilitation counseling that focuses on the family as the center of a person-centered model, rather than as an adjunct to individual counseling. It advocates counseling in the context of community, requiring the recognition of social transaction as the primary focus of all interventions. The book provides the tools and knowledge base to effective
