Sommario/riassunto	These studies break new ground in the exploration of early Christianity and Judaism towards the end of the Second Temple period. Professor Borgen introduces fresh perspectives on many central issues in the complexity of Judaism both within Palestine and in the Diaspora. He also examines the variety of tendencies which existed within Christianity as it emerged within Judaism and spread out into other nations. An invaluable study for all scholars, teachers and students of the New Testament in general and of Judaica, Classics and Hellenism
