Sommario/riassunto	This volume brings together leading experts on the investigation, litigation and scholarly analysis of innocence cases in America, from

legal, political and ethical perspectives. The contributors consider the challenges faced by the exoneration movement, causes of wrongful convictions, problems associated with investigating, proving, and defining 'innocence', and theories of reform. These issues are investigated from a multi-disciplinary perspective and with the aim of improving the American criminal justice system when it is faced with its most harrowing sight: an innocent defendant.
