AAC for Children with Cerebral Palsy Chapter 11. Literacy Challenges and Early Intervention for Children Using Aided Communication: Starting WellChapter 12. Commentary on Evidence-Based Practice and NDT; Index
Sommario/riassunto	Developed for therapists working with children with cerebral palsy and other neuromotor disorders, this book outlines practical clinical interventions from expert clinicians and evaluates the evidence that supports these interventions. Chapters highlight the problem-solving and critical-thinking skills necessary to assess and treat the feeding and communication needs of children with this central motor impairment.
