Titolo	SAP on Azure implementation guide : move your business data to the cloud. / / Nick Morgan, Bartosz Jarkowski
Pubbl/distr/stampa	Birmingham, England ; ; Mumbai : , : Packt, , [2020] 2020
ISBN	1-83898-723-1
Descrizione fisica	iii, 231 pages : illustrations
Disciplina	658.4038011
Soggetti	Management information systems management information system business data processing cloud computing database management system
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cloud readiness -- Architect SAP on Azure -- Migrate SAP to Microsoft Azure -- Transforming SAP in Azure.
Sommario/riassunto	"Cloud technologies have now reached a level where even the most critical business systems can run on them. For most organisations SAP is the key business system. If SAP is unavailable for any reason then potentially your business stops. Because of this, it is understandable that you will be concerned whether such a critical system can run in the public cloud. However, the days when you truly ran your IT system on-premises have long since gone. Most organizations have been getting rid of their own data centres and increasingly moving to co-location facilities. In this context the public cloud is nothing more than an additional virtual data centre connected to your existing network. There are typically two main reasons why you may consider migrating SAP to Azure: You need to replace the infrastructure that is currently running SAP, or you want to migrate SAP to a new database. Depending on your goal SAP offers different migration paths. You can decide either to migrate the current workload to Azure as-is, or to combine it with changing the database and execute both activities as a single step. SAP

on Azure Implementation Guide covers the main migration options to lead you through migrating your SAP data to Azure simply and successfully."--Publisher.
