Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (p. [215]-231) and index.
Nota di contenuto	pt. 1. The origins and evolution of the Indo-European flectional type : the derivative-flectional type of Indo-European and the paradigmatic-flectional type of Latin -- pt. 2. The basic principles and origins of the nominal system and inflections -- pt. 3. The Indo-European origins of the Latin verbal system.
Sommario/riassunto	This study aims to describe the typological characteristics of the original Indo-European structure, called the derivative-flectional stage (or (sub)type), and to trace its developments to the paradigmatically organized structure of the individual Indo-European languages, called the paradigmatic-flectional stage (or (sub)type). This development is demonstrated in Latin, a language characterized by highly developed inflection, which attests, especially by its verbal system, an alternative way of paradigmatising the original structure, differing from Old Indian and Greek on which traditional reco
