Sommario/riassunto

Audio description (AD) is a narrative technique which provides complementary information regarding the where, who, what and how of any audiovisual content. It translates the visuals into words. The principal function of this ad hoc narrative is to make audiovisual content available to all: be it a guided city tour of Barcelona, a 3D film, or a Picasso painting. Audio description is one of the younger siblings of Audiovisual Translation, and it is epigonic to the audiovisual translation modality chosen. This book is the first volume on the topic written in English and it brings together an inte
