R. Firth and the Cours de linguistique générale A Historiographical Sketch -- PART II: Towards Integration in Language Study -- Serbo-Croatian Adjective-Declension Nouns and Viggo Brøndal's Principle of Compensation -- The Markedness Principle and the Slavic Color Vocabulary -- The Semantics of a Hero -- Clitics and Lexical Features in Generative Grammar -- Preterite and Perfect in Modern English -- PART III: Towards Language Study in Context -- Forty Years of Evolution in Contact Linguistics.
Sommario/riassunto	Each of the contributions in this volume expresses in some way the

hope that it is possible to achieve an integrity of linguistics, understood as a science of man, in its psychological, sociological, pragmatic and cultural context. The first section focuses on the history of language study, the second section on the integrative description of facets of language, and the last section on the need for the study of language in context.
