

1. Record Nr.	UNINA9910827542403321
Autore	Palazzo Danilo <1962->
Titolo	Urban ecological design : a process for regenerative places // Danilo Palazzo and Frederick Steiner
Pubbl/distr/stampa	Washington, D.C., : Island Press, c2011
ISBN	1-59726-829-1
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (341 p.)
Altri autori (Persone)	SteinerFrederick R
Disciplina	307.1/216
Soggetti	City planning Urban ecology (Sociology) Ecological landscape design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Processes -- Prerequisites -- Knowledge -- Synthesis -- Options -- Dialogues -- Master plan -- Presentation -- Details -- Implementation -- Conclusion.
Sommario/riassunto	Urban Ecological Design presents an interdisciplinary method of transforming urban spaces that considers issues of ecology and sustainability alongside urban form. Rather than offer a prescriptive approach, the authors describe a "process model" that has been developed and tested over time. They illustrate the different stages of the design process using theories, techniques, images, and case studies that will inform any urban design project.
