Soggetti Business networks
Information modeling
Ontologies (Information retrieval)
Semantic networks (Information theory)

Lingua di pubblicazione Inglese

Formato Materiale a stampa

Livello bibliografico Monografia

Note generali Description based upon print version of record.

Nota di bibliografia Includes bibliographical references and index.

Nota di contenuto Title page; Preface; Conference Organization; Contents; The Attractiveness of Foundational Ontologies in Industry; The Business of Ontology Calls for a Formal Pragmatics; Knowledge Based Systems in Industry - Ontology Pays Half the Rent; Utilizing Ontologies for Petrochemical Applications; Implicit Metadata Generation on the Semantic Desktop Using Task Management as Example; Roles: A Four-Dimensional Analysis; Using Background Knowledge and Context Knowledge in Ontology Mapping; Counterfeits and Copies. An Ontological Analysis
Application Scenarios of Ontology-Driven Situation Awareness Systems - Exemplified for the Road Traffic Management DomainOntological Domain Coding for Cultural Heritage Mediation; An Ontology for

Environmental and Health and Safety Risks' Evaluation for Construction; Using Agility in Ontology Construction; IPAS Ontology Development; Folksonomies Meet Ontologies in ARSMETEO: From Social Descriptions of Artifacts to Emotional Concepts; Relationship Discovery Ontology in Asymmetric Warfare; Author Index

Sommario/riassunto   The success of the methodologies associated with knowledge modeling and ontologies led to increased need of a comparison between different approaches and results. This book focuses on ontology in relation to business, enterprise, enterprise knowledge, practice and linguistics.
