Fiorina -- Taking the Brandeis metaphor seriously : policy experimentation within a federal system / Mark Carl Rom -- The states as a laboratory : legal innovation and state competition for corporate charters / Roberta Romano -- Two perspectives on governmental underperformance / Eugene Bardach.

## Sommario/riassunto

"Analyzes government's ability to "promote the general welfare" in the areas of health, transportation, housing, and education. Then examines two tools to improve policy design: information markets and laboratory experiments. Concludes by asking how Congress, the party system, and federalism affect government's ability to solve important social problems"--Provided by publisher.
