Sommario/riassunto	Europe endured such incessant political discord throughout the twentieth century that some historians refer to the period's conflicts as the Long War. During the Balkan wars of 1912--1913, regional fighting in southeastern Europe ignited conflict across the continent that continued through both world wars and the Cold War. In Consumed by War: European Conflict in the 20th Century, Richard C. Hall illuminates the complex diplomatic and military struggles of a region whose instability, rooted in a nineteenth-century nationalistic fervor, provided a catalyst for the political events that ensued.
