Sommario/riassunto

In First Person Accounts of Mental Illness, case studies of individuals experiencing schizophrenia, mood disorders, anxiety disorders, personality disorders, substance use disorders, and other mental ailments will be provided for students studying the classification and treatment of psychopathology. All of the cases are written from the perspective of the mentally ill individual, providing readers with a unique perspective of the experience of living with a mental disorder. "In their book First Person Accounts of Mental Illness and Recovery, LeCroy and Holschuh offer the student, res
