Nota di bibliografia Introduction -- The Art and Science of Psychological Assessment and Nota di contenuto Treatment -- Overview of Current Documentation Procedures and Third-Party Requirements -- Ethical Considerations in Documentation -- The Biopsychosocial Assessment -- The Clinical Interview: Mental Status Exam -- The Clinical Interview: Validating a Diagnosis --Formulating a Treatment Plan -- Writing Progress Notes --Documenting the Need for Additional Services -- Documenting Mental Health Treatment Outcomes for Individuals. "Fully updated to include diagnostic criteria of the DSM-5, The Sommario/riassunto Psychotherapy Documentation Primer, 4th Edition is designed to teach documental skills for the course of psychotherapy from the initial interview to the discharge. The documentation principles discussed in the text satisfy the often-rigid requirements of third-party insurance companies, regulating agencies, mental health licensing boards, and federal HIPAA regulations. More importantly, it provides students and professionals with the empirical and succinct documentation techniques and skills that will allow them to provide clear evidence of the effects of mental health treatment while also reducing the amount of their time spent on paperwork"--
