Sommario/riassunto	This book provides prescribing advice for medical and non-medical prescribers caring for adult patients with common musculoskeletal problems. It will be particularly useful for non-medical practitioners, including independent physiotherapy and podiatry prescribers. Reference is made to current prescribing law and accountability, and the principles of safe prescribing are clearly defined. It gives practical prescribing advice for pain control, corticosteroids, osteoporosis, Paget's disease, gout and disease-modifying anti-rheumatic drugs. Basic information is provided on each drug, including th
