Sommario/riassunto

Contributors analyze the care economy in the developing world, at a moment when existing systems are under strain and new ideas are coming into focus. Offers the first global, regionally diverse study of the "invisible economy" of care, including case studies from diverse regional contexts of Africa, Asia and Latin America Frames the debate on care and highlights policy experimentation and ideas currently in flux Includes new research and data on developing countries, showing how, where care options for the socially d
