Sommario/riassunto	Iron Age Myth and Materiality: an Archaeology of Scandinavia AD 400-1000 considers the relationship between myth and materiality in Scandinavia from the beginning of the post-Roman era and the

European Migrations up until the coming of Christianity. It pursues an interdisciplinary interpretation of text and material culture and examines how the documentation of an oral past relates to its material embodiment. While the material evidence is from the Iron Age, most Old Norse texts were written down in the thirteenth century or even later. With a time lag of 300 to 900 years fr
