Large-scale land acquisitions in Tanzania: a critical analysis of practices and dynamics / Lennart Salomonsson -- ; 3. Kenya and the `global land grab': a view from below /
Sommario/riassunto	The last two years have seen a huge amount of interest in the increasingly contentious issue of land grabbing - the large-scale acquisition of land in the global South. This in-depth and empirically diverse volume takes a step back from the hype to explore a number of key questions: does the 'global land grab' actually exist? If so, what is new about it? And what, beyond the immediately visible dynamics and practices, are the real problems? A comprehensive and much-needed

intervention.
