Nota di bibliografia Includes bibliographical references (p. 49-52). Nota di contenuto Preliminaries -- Contents -- 1 Introduction -- Appendices. The widening recognition of mental health as a significant international Sommario/riassunto public health issue has led to an increasing need to demonstrate that investment of resources into service development is both required and also worthwhile. In particular, there is a need to generate evidence on mental health care strategies that are not only effective and appropriate but are also cost-effective and sustainable. Aimed at health policymakers and service researchers with an interest in strengthening mental health systems, this publication sets out to highlight the need

> for and relevance of an economic dimension to decision-making and to summarise results from existing mental health economic analyses.
