

1. Record Nr.	UNINA9910376443403321
Titolo	ICSS 2016 : proceedings, 2nd annual Industrial Control System Security Workshop : Los Angeles, California, USA, 6 December 2016 // sponsored by Applied Computer Security Associates
Pubbl/distr/stampa	New York : , : ACM, , 2016
ISBN	1-4503-4788-6
Descrizione fisica	1 online resource (57 pages)
Disciplina	658.5
Soggetti	Production control Automatic control - Security measures Supervisory control systems - Security measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910827994903321
Autore	Lay Maxwell Gordon
Titolo	The harnessing of power : how 19th century transport innovators transformed the way the world operates / / by Maxwell Gordon Lay
Pubbl/distr/stampa	Newcastle upon Tyne, UK : , : Cambridge Scholars Publishing, , 2018
ISBN	1-5275-1549-4
Descrizione fisica	1 online resource (xiv, 371 pages) : illustrations, maps
Disciplina	388.09
Soggetti	Transportation - History - 19th century Transportation - Technological innovations - History - 19th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This book examines how the 19th century's transport legacy of bicycles, trains, ocean-going steamers, trucks, trams, buses and cars arose, creating numerous new technologies and markets. Nothing like this range of transport changes had occurred before, and the 20th century changes were incremental compared with those of the 19th century. The book explores where the key transport features came from, and why there were so many inventions, innovations, and inconsistencies. The Industrial Revolution was a key part of the process as it had strong links with transport developments. This text adopts a broad, global perspective, but has a strong British orientation, as the Industrial Revolution was a process predominantly initiated and implemented in Britain. Nevertheless, when the Revolution lost momentum, Britain began to lose its leadership. By century's end, France and south-western Germany were dominant change-makers and the USA was appearing on the horizon. The book also highlights the many individual inventors and entrepreneurs who caused the dramatic transport changes, and notes that they did this predominantly through individual initiatives to satisfy personal, rather than corporate or national, goals and that they were often hindered, rather than aided, by officialdom.--Page 4 of cover.</p>
