Sommario/riassunto	Written by an expert in gerontological social work and curriculum development, this book provides a wealth of clinical information for social workers and other health care professionals who counsel older adults. It describes a strengths-based, empowerment approach to treatment that integrates theory, technique, advocacy, and social policy, and encompasses the tenets of human rights. The book's content has been tested in the classroom setting for a three-year period with advanced social work undergraduate and graduate students. The book examines various theories of aging including a contrast be
