3. Record Nr.	UNINA9910828167103321
Autore	Drago Carl J.
Titolo	Implant restorations : a step-by-step guide / / Carl Drago
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley-Blackwell, , 2020
ISBN	1-119-53815-7 1-119-53813-0 1-119-53817-3
Edizione	[Fourth edition.]
Descrizione fisica	1 online resource (533 pages)
Disciplina	617.692
Soggetti	Dental implants Dentures Surgery, Computer-Assisted Dental Implantation, Endosseous - methods Dental Prosthesis - methods Computer-Aided Design Tomography, X-Ray Computed
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction to implant dentistry -- Implants and implant restorative components -- Diagnosis and treatment planning in implant restorative dentistry -- Treatment of edentulous mandibular patients : (1) Implant-retained framework overdenture and resilient attachments : (2) Resilient attachments and two inter-foraminal implants -- Replacement of single teeth with CAD/CAM implant restorations : implant level impressions : intra-oral scanning : cement and screw-retained crowns -- Fixed dental prostheses : re-treatment of a patient with a fractured implant-retained fixed partial denture in the posterior maxilla-CAD/CAM abutments and a new fixed partial denture (cement retained) : intra-oral scanning and screw-retained fixed dental prosthesis (ISUS) -- Accelerated treatment protocol of a patient with edentulous jaws and CAD/CAM titanium framework/fixed hybrid prostheses -- Treatment of edentulous patients with immediate occlusal loading : conventional surgical and computer-generated surgical guides -- Treatment of

edentulous patients with immediate occlusal loading : conventional surgical/prosthetic protocols -- Treatment of partially edentulous patients with immediate non-occlusal loading protocols (intra-oral scanning, CAD/CAM abutment and definitive maxillary central incisor restoration : co-axis implant and restoration -- Computed tomography (CT) guided surgery/immediate occlusal loading with full arch prostheses in edentulous patients -- Guidelines and maintenance procedures for fixed, full-arch, implant-retained prostheses.

Sommario/riassunto

"The fourth edition of Implant Restorations: A Step-by-Step Guide provides a wealth of updated and expanded coverage on detailed procedures for restoring dental implants. Focusing on the most common treatment scenarios, it offers concise literature reviews for each chapter, easy-to-follow descriptions of the techniques, along with high-quality clinical photographs demonstrating each step. Comprehensive throughout, this practical guide begins with introductory information on incorporating implant restorative dentistry in clinical practice. It covers diagnosis and treatment planning and digital dentistry, and addresses advances in cone beam computerized tomography (CBCT), treatment planning software, computer generated surgical guides, rapid prototype printing and impression-less implant restorative treatments, intra-oral scanning, laser sintering, and printing/milling polymer materials. Record-keeping, patient compliance, hygiene regimes, and follow-up are also covered. Provides an accessible step-by-step guide to commonly encountered treatment scenarios, describing procedures and techniques in an easy-to-follow, highly illustrated format offers new chapters on diagnosis and treatment planning and digital dentistry covers advances in cone beam computerized tomography (CBCT), computer generated surgical guides, intra-oral scanning, laser sintering, and more An excellent and accessible guide on a burgeoning subject in modern dental practice by one of its most experienced clinicians, Implant Restorations: A Step-by-Step Guide, Fourth Edition will appeal to prosthodontists, general dentists, implant surgeons, dental students, dental assistants, hygienists, and dental laboratory technicians"--
