Sommario/riassunto	"In our book, Phakic IOLs, we have attempted to examine the state of the art of Phakic IOLs. We have divided the science into several primary chapters: the history of phakic IOLs and the difficult periods of its development; indications and contraindications, the evaluations necessary for the correct selection of the IOL; the lenses that are currently available, the implantation techniques, the intra-operative

and post-operative complications, the explantation techniques and the reasons why the lens should be explanted. In the last chapter, we compare the Phakic IOLs with Lasik and Bioptics concluding with the future of Phakic IOLs. We have tried to provide our readers all of the available scientific information and results of the various studies published over the years, demonstrating and confirming the ongoing evolution in this field. We sincerely hope that the book may prove useful for doctors in their routine professional activities, to improve and perfect their surgical options for the benefit of their patients"--

Sommario/riassunto

This book provides essential information on the legal rights of employers and employees in Turkey, plus up-to-date sections on wages, working hours, employment contracts, discrimination laws, and unions. The work mainly consists of three parts: introduction, individual labour law, and collective labour law in Turkey. The extensive material and numerous court decisions presented in each chapter will introduce readers to the major current debates in labour law and encourage them to engage in critical and independent assessment. As such, the book offers an engaging and accessible overview of the development and status quo of labour law and industrial relations issues in Turkey. .
