

1. Record Nr.	UNINA9910828250003321
Autore	Adolphs Svenja
Titolo	Spoken corpus linguistics : from monomodal to multimodal // Svenja Adolphs and Ronald Carter
Pubbl/distr/stampa	New York : , : Routledge, , 2013
ISBN	1-134-05670-2 0-203-52614-7 1-134-05663-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (216 p.)
Collana	Routledge advances in corpus linguistics ; ; 15
Altri autori (Persone)	CarterRonald <1947->
Disciplina	410.1/88
Soggetti	Corpora (Linguistics) Discourse analysis Speech acts (Linguistics) Linguistic analysis (Linguistics) Grammar, Comparative and general Computational linguistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 187-202) and index.
Nota di contenuto	Making a start: building and analyzing a spoken corpus -- Corpus and spoken interaction: Multi-word units in spoken English -- From concordance to discourse: responses to speakers -- Case studies in applied spoken corpus linguistics -- Discourse markers, spoken English and pedagogic settings -- Listening to lectures: small words and multiword units -- Sound evidence: prosody and spoken corpora -- Moving beyond the text -- Developing a framework for analysing headtalk and handtalk: first steps -- Future directions.
Sommario/riassunto	<P>In this book, Adolphs and Carter explore key approaches to work in spoken corpus linguistics. The book discusses some of the pioneering challenges faced in designing, building and utilising insights from the analysis of spoken corpora, arguing that, even though writing is heavily privileged in corpus research, the spoken language can reveal patterns of language use that are both different and distinctive and that this has important implications for the way in which language is described, for the study of human communication and for

the field of applied linguistics as a whole. </P><P></P><I>
