2. Record Nr.	UNINA9910828254903321
Titolo	Maternal recognition of pregnancy
Pubbl/distr/stampa	Amsterdam ; ; New York : , : Excerpta Medica, , 1979
ISBN	9786613694218 9781280783821 1280783826 9780470718148 0470718145 9780470720479 0470720476
Edizione	[1st ed.]
Descrizione fisica	1 online resource (437 pages) : illustrations
Collana	Ciba Foundation symposium ; ; 64 (new ser.)
Disciplina	599/.01/6
Soggetti	Pregnancy - Immunological aspects Obstetrical endocrinology Ovum implantation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Maternal Recognition of Pregnancy; Contents; Introduction; Comparative aspects of blastocyst-endometrial interactions at implantation; Discussion; Changes in the surface of the mouse blastocyst at implantation; Discussion; The hormonal control of implantation; Discussion; Hormonal control of implantation in the rat: inhibition by luteinizing hormone-releasing hormone and its analogues; Discussion; Significance of maternal uterine proteins in the establishment of pregnancy; Discussion; Molecular and cellular aspects of facultative delayed implantation in the mouse; Discussion Hormonal control of embryonic diapause and reactivation in the tammar wallaby Discussion; Human chorionic gonadotropin and maternal recognition of pregnancy; Discussion; Blastocyst oestrogen synthesis and the maternal recognition of pregnancy; Discussion; The nature and role of pregnancy-associated antigens and the endocrinology of early pregnancy in the ewe; Discussion; Antiluteolytic

effect of the embryo; Discussion; Maternal immunological recognition mechanisms during pregnancy; Discussion
Maternal recognition of pregnancy and immunological implications of trophoblast-endometrium interactions in equids Discussion;
Immunological interference with the maternal recognition of pregnancy in primates; Discussion; When a conception fails to become a pregnancy; Discussion; Final general discussion; Is there maternal recognition of pregnancy before implantation?; Signals in ectopic pregnancy; Progesterone metabolism in early pregnancy; Uterine secretion of prostaglandins; Specific uterine proteins in pregnancy; Chairman's summing-up; Index of contributors; Subject index

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
