

1. Record Nr.	UNINA9910828267203321
Autore	Friedlander E. M (Eric M.), <1944->
Titolo	Filtrations on the homology of algebraic varieties // Eric M. Friedlander, Barry Mazur
Pubbl/distr/stampa	Providence, Rhode Island, United States : , : American Mathematical Society, , 1994 ©1994
ISBN	1-4704-0108-8
Descrizione fisica	1 online resource (126 p.)
Collana	Memoirs of the American Mathematical Society, , 0065-9266 ; ; Volume 110, Number 529
Disciplina	516.3/5
Soggetti	Algebraic cycles Filters (Mathematics) Homology theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"July 1994, Volume 110, Number 529 (fourth of 6 numbers)"--Cover.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Contents""; ""Preface""; ""Introduction""; ""Chapter 1. Questions and Speculations""; ""1.1. The filtrations""; ""1.2. Dependence on the projective imbedding""; ""1.3. The ""Strong Lefschetz"" mapping in Lawson Homology""; ""1.4. Equivalence relations on algebraic cycles""; ""1.5. Stabilized homotopy of moduli spaces""; ""1.6. Joins and Resultants""; ""Chapter 2. Abelian monoid varieties""; ""2.1. Monoids""; ""2.2. Limits""; ""2.3. Directed systems attached to an abelian monoid""; ""2.4. Limits of covariant functors""; ""2.5. Bi-algebras""; ""2.6. Abelian group completions"" ""2.7. Constructing $\lim H^*(m)$ from $H^*(M)$ """"2.8. Base points""; ""2.9. Primitive elements""; ""2.10. Mixed Hodge Structure""; ""Chapter 3. Chow varieties and Lawson homology""; ""3.1. The Chow variety""; ""3.2. Functoriality and Chow varieties""; ""3.3. Functoriality: algebraic context""; ""3.4. The additive monoid""; ""3.5. Lawson homology""; ""Chapter 4. Correspondences and Lawson homology""; ""4.1. Correspondence homomorphisms""; ""4.2. The Chow correspondence homomorphism""; ""4.3. The Chow correspondence homomorphism and Lawson homology"" ""Chapter 5. ""Multiplication"" of algebraic cycles""""5.1. The

multiplicative structure on Chow varieties"; "5.2. Bilinear pairings on group completions"; "5.3. The multiplicative structure on Lawson homology"; "5.4. The ring structure on Lawson homology of $P^{\sup}(0)$ "; "Chapter 6. Operations in Lawson homology"; "6.1. The structure of the algebra A "; "6.2. A "geometric" description of s "; "6.3. A homological description of iterates of s "; "6.4. The connection between s and the correspondence homomorphism"; "6.5. The operator $I_{\sub(j)}$ and the Chow correspondence homomorphism"; "6.6. The operator h "; "Chapter 7. Filtrations"; "7.1. The Hodge Filtration"; "7.2. The Geometric filtration"; "7.3. The Topological filtration"; "7.4. The Correspondence subspace"; "7.5. Equality of correspondence and topological filtrations"; "Appendix A. Mixed Hodge Structures, Homology, and Cycle classes"; "A.1. Mixed Hodge Structure on homology and cohomology"; "A.2. Homology and cohomology of smooth varieties"; "A.3. Cycle classes in homology"; "A.4. Change of cycle class under l.c.i. morphisms"; "A.5. Relation to birational change of correspondence"; "A.6. Correspondences and suspensions"; "Appendix B. Trace maps and the Dold-Thom Theorem"; "B.1. The inverse image mapping on homology attached to a "weighted map"; "B.2. The Dold-Thom theorem"; "Appendix Q. On the group completion of a simplicial monoid"; "Q.1. Rings of fractions"; "Q.2. Grading of $RS-\sup(1)$ "; "Q.3. The Eilenberg-Moore spectral sequence"; "Q.4. A comparison lemma"; "Q.5. Good simplicial monoids"; "Q.6. Homology of the group completion"; "Q.7. Applications to K-theory"
