Sommario/riassunto	This is an exploration and reconstruction of the role of charlatans, itinerant medical practitioners, in Italy from the Renaissance to the Enlightenment. David Gentilcore examines the goods and services charlatans provided, their marketing strategies, and dealings with the public, and shows how the authorities attempted to regulate and control their business. - ;From the mid-sixteenth century onwards, the Italian Protomedicato tribunals, Colleges of Physicians, or Health Offices (jurisdiction varied from state to state) required charlatans to submit their wares for inspection and, upon approva
