

1. Record Nr.	UNINA9910828299203321
Titolo	Glaucoma diagnosis structure and function : reports and consensus statements of the 1st Global AIGS Meeting on 'Structure and Function in the Management of Glaucoma' // Robert N. Weinreb and Erik L. Greve, editors
Pubbl/distr/stampa	The Hague, : Kugler Publications, 2004
ISBN	1-280-62617-8 9786610626175 90-6299-745-7
Descrizione fisica	1 online resource (x, 159 pages) : illustrations, portraits
Collana	WGA Consensus Series 1
Altri autori (Persone)	WeinrebRobert N. <1949-> GreveErik L
Disciplina	617.7 617.741
Soggetti	Glaucoma - Diagnosis Glaucoma - Surgery Open-angle glaucoma
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; The Value of Guidelines and Consensus and the Reality of Clinical Practice; Levels of Evidence of Diagnostic Studies; Histopathology Underlying Glaucomatous Damage - I; Histopathology Underlying Glaucomatous Damage - II; Comment on the Histopathology of Glaucoma; Histopathology Underlying Glaucomatous Damage - III; Optic Disc Photographs; Retinal Nerve Fiber Layer (RNFL) Photography; Scanning Laser Tomography (HRT); Scanning Laser Polarimetry (SLP); Optical Coherence Tomography (OCT); Standard Automated Perimetry (SAP); Comment on Standard Automated Perimetry - I Comment on Standard Automated Perimetry - II; Comment on Standard Automated Perimetry - III; Short Wavelength Automated Perimetry (SWAP); Frequency Doubling Technology (FDT) Perimetry; Comparison of Functional Methods; Comparison of Structural Methods; Comparison of Structural and Functional Methods - I; Comparison of Structural and

Sommario/riassunto

To the best of our knowledge, the 1st Global AIGS Consensus Meeting on "Structure and Function in the Management of Glaucoma" was also the first global consensus meeting in ophthalmology. The goal was to reach an evidence-based consensus for both clinical practice and research through the use of information obtained from peer-reviewed literature describing functional and structural diagnostic testing in glaucoma. The faculty and review group consisted of leading global authorities on glaucoma diagnostic testing. The preparation for the Consensus was unique in its format (see page xii).
