Sommario/riassunto

This new volume reviews the latest research on fathering from every  
continent, from cultures representing over 50% of the world's  
population. International experts on 14 societies/regions discuss  
cultural and historical influences, variations between and within  
cultures, and socio economic conditions and policies that impact  
fathering. Contributors from several disciplines provide thought-  
provoking reviews of the empirical data to help us gain an  
understanding of fathering worldwide. Over 1,000 studies on fathering  
published in languages other than English are made accessible to  
readers aro
