

1. Record Nr.	UNINA9910828308503321
Titolo	Graph partitioning // edited by Charles-Edmond Bichot, Patrick Siarry
Pubbl/distr/stampa	London, : ISTE Hoboken, N.J., : Wiley, 2011 London : , : ISTE Hoboken, N.J. : , : Wiley, , 2011
ISBN	9781118601181 1118601181 9781299146341 1299146341 9781118601198 111860119X 9781118601259 1118601254
Edizione	[1st ed.]
Descrizione fisica	1 online resource (386 pages)
Collana	ISTE.
Altri autori (Persone)	BichotCharles-Edmond SiarryPatrick
Disciplina	512.7/3
Soggetti	Partitions (Mathematics) Graph theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Graph partitioning for numerical analysis -- pt. 2. Optimization methods for graph partitioning -- pt. 3. Other approaches to graph partitioning.
Sommario/riassunto	Graph partitioning is a theoretical subject with applications in many areas, principally: numerical analysis, programs mapping onto parallel architectures, image segmentation, VLSI design. During the last 40 years, the literature has strongly increased and big improvements have been made. This book brings together the knowledge accumulated during many years to extract both theoretical foundations of graph partitioning and its main applications.
