The Bohemian Grove and the Making of the Bourgeois- Bohemian -- 5. Regional Bohemias -- 6. Cosmopolitan Bohemias -- 7. The Spiritual Geography of Greenwich Village, 1912– 1920 -- Notes -- Index
Sommario/riassunto	Bohemia in America, 1858–1920 explores the construction and emergence of "Bohemia" in American literature and culture. Simultaneously a literary trope, a cultural nexus, and a socio-economic landscape, la vie bohème traveled to the United States from the Parisian Latin Quarter in the 1850's. At first the province of small artistic coteries, Bohemia soon inspired a popular vogue, embodied in restaurants, clubs, neighborhoods, novels, poems, and dramatic performances across the country. Levin's study follows la vie bohème from its earliest expressions in the U.S. until its explosion in Greenwich Village in the 1910's. Although Bohemia was everywhere in nineteenth- and twentieth-century American culture, it has received relatively little

scholarly attention. *Bohemia in America, 1858–1920* fills this critical void, discovering and exploring the many textual and geographic spaces in which Bohemia was conjured. Joanna Levin not only provides access to a neglected cultural phenomenon but also to a new and compelling way of charting the development of American literature and culture.
