Sommario/riassunto	This is a major contribution to the study of medieval Wales by a group of outstanding British historians, writing in honour of one of Wales's most distinguished scholars and the biographer of Prince Llywelyn ap Gruffudd. The essays reflect exciting trends in the study of both Wales and the Middle Ages, including church building, chronicle writing, the

comparative history of the law, and valuable reassessments of town life  
and the implications of the Edwardian conquest of Wales.
