Sommario/riassunto	What happens to looked-after children in the longer term? This book analyses the outcomes of a large-scale study of foster children in the UK. It includes individual case studies and draws extensively on the views of foster children themselves. The authors examine:Why children remain fostered or move to different settings (adoption, residential care, their own families or independent living)How the children fare in these different settings and why What the children feel about what

happens to them. Other important issues covered include the support given to birth families to enable children to re
