Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; I: Lifestyle; II: Systems and Modalities; III: Reproductive Health; IV: Common Illnesses in Women; Index
Sommario/riassunto	Women have made it clear that they desire a broader, integrative approach to their care. Here, for the first time, Integrative Women's Health weaves together the best of conventional treatments with mind-body interventions, nutritional strategies, herbal therapies, dietary supplements, acupuncture, and manual medicine, providing clinicians with a roadmap for practicing comprehensive integrative care. Presenting the best evidence in a concise, accessible format, and written exclusively by female clinicians, this text addresses many aspects of women's health, including feminine perspectives on a
