Martinez -- Advanced technology enablers / Marco Fiorello and Donald McSwain -- Integrated training systems / Scott Jasper and Scott Moreland.
Sommario/riassunto	This will be the first book to attempt to take a 'holistic' approach to security in the Commons (outer space, the atmosphere, the oceans, cyberspace, etc) in that it examines in detail each domain of the commons, identifying and assessing the current and future threats to free international access to the domain.
