| Sommario/riassunto      | This book presents the results of the first interdisciplinary approach to evaluative morphology based on the intersection of evaluative morphology and areal typology, and provides the first large-scale typological research based on a sample of 200 languages. Furthermore, it also represents the first work dealing with evaluative morphology as a feature of Standard Average European by comparing the SAE and world samples. Methodologically, it introduces the parameter of Evaluative Morphology Saturation, which identifies the richness of evaluative morphology in individual languages by reflecting t |
