Sommario/riassunto

This book presents a comprehensive analysis of current trends of trade and economic growth in Asia, assessing how they are likely to develop in the future. It examines the evolving patterns of Asian economic development with the emergence of China, including since China's accession to the World Trade Organisation (WTO) in 2001. It is written by experts specialising in economic growth and regional and global trade/investment issues, alongside country specialists who have examined the development path of Asian economies. It discusses the significance of a export-oriented growth strategy on th
