Sommario/riassunto	Drug testing has become the norm in many workplaces. In order to get a job, potential employees are required to provide their urine for testing. Pissing on Demand examines this phenomenon along with the resulting rise of the anti-drug testing movement, or the "detox industry," that works to beat these tests. Strategies include over-the-counter products like "body flushers" that sound innocent but are really designed to mask the presence of illegal drugs to kits advertised in pro-drug publications like High Times that make no bones about their real purpose. The first expose of the detox ind
