1.	Record Nr.	UNINA9910828595603321
	Autore	Dombrowski Quinn
	Titolo	Drupal for humanists / / Quinn Dombrowski
	Pubbl/distr/stampa	College Station : , : Texas A&M University Press, , [2017] ©2017
	Edizione	[First edition.]
	Descrizione fisica	1 online resource
	Collana	Coding for Humanists
	Disciplina	006.7/8
	Soggetti	Web sites - Authoring programs Open source software
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Includes index.
	Nota di contenuto	First Things -- Introducing Drupal -- Installing Drupal -- Modules -- Content Types and Introduction to Data Modeling -- Configuring Content Types and Fields -- Further Data Modeling and Applied Content Type Creation -- Configuring Input Forms and Adding Content -- Node Display -- Users and Permissions -- Blocks and Menus -- Views -- Advanced Views -- Importing Data -- Exporting Data -- Search -- Managing Taxonomies -- Themes -- Finishing and Launching the Example Site -- Running, Maintaining, and Debugging a Drupal Site -- Appendix: Using an SFTP Client.
	Sommario/riassunto	Drupal is a free and open-source content management framework. It is, like many web platforms, the "backbone" behind a website, invisible to front-end users but critical to the foundation, organization, and presentation of content. As more scholars and students seek to make their research available online-using the power of the web to find newer and richer ways of presenting large data sets-they are increasingly reaching the limits of what "old" platforms can accomplish. Author Quinn Dombrowski has taught numerous courses in Drupal programming for scholars in the humanities; the techniques here have been field tested. The majority of this book is centered around the creation of an example website, based on a fully functional website that is driven by Drupal.Drupal for Humanists is the first book on Drupal to be crafted specifically for non-technical users. This manual does not

assume any prior experience with PHP, FTP, databases, CMS, or even HTML. If these acronyms are unfamiliar, Drupal for Humanists is the place to start.
