1. Record Nr.   UNINA9910828662703321

   Autore   Rao Ramanujam

   Titolo   JBoss portal server development : create dynamic, feature-rich, and
                      robust enterprise portal applications / / Ramanujam Rao

   Pubbl/distr/stampa Birmingham, U.K., : Packt Pub., 2009

   ISBN   1-282-00878-1
                      9786612008788
                      1-84719-411-7

   Edizione   [1st ed.]

   Descrizione fisica 1 online resource (276 p.)

   Collana   From technologies to solutions

   Disciplina   005.133

   Soggetti   Web servers - Management
                      Java (Computer program language)
                      Open source software

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Includes index.

   Nota di contenuto Cover; Copyright; Credits; About the Author; About the Reviewers;
                      Table of Contents; Preface; Chapter 1: Portals and Portal Servers;
                      Portals; Why portals?; Types of portals; Function-based portals; Vertical
                      portal; Horizontal portal; User-based portals; B2B portal; B2C portal;
                      B2E portal; Portal servers; Portlets and portlet container; Constructing a
                      view; Portal specification and WSRP; Servlets and portlets; Summary;
                      Chapter 2: Getting Started with JBoss Portal; JBoss portal server;
                      Features; Installing the server; Getting the software; System
                      requirements; Installation
                      JBoss portal packaged with JBoss application serverJBoss portal binary
                      without the server; Building JBoss portal from source; Configuration;
                      Changing the context root; Changing the portal port; Setting email
                      service; Configuring proxies; Working with the portal; Getting started;
                      Creating our first portal page; Summary; Chapter 3: Saying Hello with a
                      Portlet; Portal page; JSR-168 and JSR-286-Java portlet specification;
                      Portal URL; Portlet modes; Window states; A Hello World portlet; Portlet
                      development environment; Portlet package structure; Writing the code;
                      Application descriptors
                      portlet.xmlportlet-instances.xml; sayhello-object.xml; web.xml;

Building the application; Deploying the application; Accessing the page and portal URL; Summary; Chapter 4: Managing the View; The Presentation tier in portals; Using Java Server Pages; Archive package structure with JSP; Writing the code; Portlet class; JSPs and portlet tags; Application descriptors; Building the application; Deploying the application; Using Java Server Faces; JSR -301 Portlet Bridge; Package structure with JSF; Application descriptors; Building the application; Deploying the application; Using JBoss Seam

Building a sample application: an intranet portalIntroduction; Creating the MyCompany portal; A JSP portlet; Summary; Chapter 5: Personalizing Our Portal Experience; Personalization and customization; Personalizing the portal; Personalization models; User profile-based; Rules-based; Collaborative filtering; Personalized interface; Layouts; Themes; RenderSets; Custom development; Personalized content; Access-level based portlets; Preference-based portlets; Analytics-based portlets; Customizing the portal; Setting preferences; Drag-and-drop content; Usability settings; Summary Chapter 6: Portals and AJAXRich user interfaces and AJAX; Asynchronous JavaScript and XML or AJAX; AJAX in JBoss portal; JSR-168 AJAX limitations; JSR-286 and AJAX; Developing an AJAX portlet; The front-end; The server-side portlet; Deployment; AJAX support for markup; Layout markup; Renderer markup; AJAX support for content; Drag-and-Drop; Partial content refresh; Portal object configuration; Portlet configuration; Constraints in implementing partial refresh; Considerations for AJAX implementations; Global variables; State management; Visual cues; Summary; Chapter 7: Databases and Portal Database use in portal

Sommario/riassunto	Create dynamic, feature-rich, and robust enterprise portal applications
