| Sommario/riassunto      | Coming of Age in U.S. High Schools: Economic, Kinship, Religious, and Political Crosscurrents takes readers into the lives of urban and suburban adolescents for a close-up look at how they navigate the conflicting discourses and disciplinary practices of American cultural crosscurrents that flow through economic, kinship, religious, and political domains of American life. The book is distinctive in how it combines classic anthropological theory and contemporary post-anthropological perspectives into an innovative framework for understanding adolescent coming of age processes in U.S. pub |
