The Russian North Connected: The Role of Long-Distance Commute Work for Regional Integration -- Section III. Climate Change -- Chapter 7. Cities of the Russian North in the Context of Climate Change -- Chapter 8. Access to Arctic Urban Areas in Flux: Opportunities and Uncertainties in Transport and Development -- Chapter 9. Russian Arctic Cities through the Prism of Permafrost -- Chapter 10. Urban Vulnerability to Climate Change in the Russian Arctic -- Chapter 11. Conclusion: Drivers of Change -- Index

Sommario/riassunto

Urban areas in Arctic Russia are experiencing unprecedented social and ecological change. This collection outlines the key challenges that city managers will face in navigating this shifting political, economic, social, and environmental terrain. In particular, the volume examines how energy production drives a boom-bust cycle in the Arctic economy, explores how migrants from Muslim cultures are reshaping the social fabric of northern cities, and provides a detailed analysis of climate change and its impact on urban and industrial infrastructure.
